

SWAROOP KUMAR SAHU

Senior Full Stack Engineer | Java

Bengaluru, India • swaroopksahu@gmail.com • [+917381644909](tel:+917381644909) • www.linkedin.com/in/swaroopksahu

SUMMARY

Senior Java Backend & Full Stack Engineer with 8+ years of experience designing and architecting scalable, high-throughput distributed systems using Java, Spring Boot, Microservices, and React.js. Strong expertise in RESTful API design, event-driven architecture (Kafka), concurrency, multithreading, JVM performance optimization, and database tuning. Experienced in building cloud-native applications on AWS with Docker, Kubernetes, and CI/CD pipelines. Proven track record of leading backend architecture initiatives, optimizing system performance by up to 3x, mentoring engineers, and delivering resilient, secure, enterprise-grade solutions across global product organizations.

PROFESSIONAL EXPERIENCE

SAP
Software Developer (Specialist)

Bengaluru, India
July 2022-Present

- Architected a high-performance binary content transport framework enabling direct BINARY RAW streaming from SAP HANA to cloud object storage, reducing memory footprint by 40% and improving large dataset scalability.
- Designed high-throughput REST APIs for distributed microservices implementing idempotency, rate limiting, OAuth2/JWT security, and concurrency controls.
- Implemented event-driven workflows and parallel job orchestration, reducing execution time by 30%.
- Optimized SAP HANA queries via indexing and data modeling; improved system performance up to 3x.
- Led backend design reviews, enforced SOLID principles, and mentored engineers on scalable architecture and CI/CD-driven deployments.

CISCO SYSTEMS
Software Engineer

Bengaluru, India
March 2021-June 2022

- Developed scalable Java Spring Boot microservices for Webex Contact Center using Kafka for event-driven communication.
- Implemented OAuth2/JWT authentication and optimized asynchronous APIs for high availability and fault tolerance.
- Supported CI/CD deployments, monitoring, logging, and production issue resolution.

NOKIA
Senior Engineer (R&D)

Bengaluru, India
October 2018-March 2021

- Enhanced architecture of core distributed components (Triggering Engine, FM Listener), improving throughput and reducing latency.
- Developed multithreaded processing modules using Java concurrency utilities; increased system capacity by 3x and improved sync efficiency by 25%.
- Designed NE simulators and optimized NTP synchronization mechanisms.

INFINITE COMPUTER SOLUTIONS
Associate Software Engineer

Bengaluru, India
October 2017-September 2018

- Developed asynchronous JobManager using multithreading and thread pools to optimize bulk query processing and reduce execution time.

TECHNICAL SKILLS

Programming Languages:

Java, JavaScript, SQL

Backend Technologies:

Spring Boot, Spring MVC, RESTful APIs, Microservices, Kafka

Frontend Technologies:

React.js, JavaScript, Hooks, Component-Based Architecture, HTML5, CSS3

Cloud & DevOps:

AWS (EC2, S3, IAM), Docker, Kubernetes, CI/CD Pipelines, Git, Agile, Scrum

Databases:

SAP HANA, SQL, Query Optimization, Indexing, Data Modeling

Security:

OAuth2, JWT, Secure Credential Management, API Rate Limiting

Testing & Quality:

JUnit, Mockito, Unit Testing, Integration Testing, Code Reviews

AI / GenAI & Agentic AI: Claude Code, Cline, GitHub Copilot, OpenAI Codex, prompt engineering, AI-assisted development, agentic AI concepts, MCP, AI agent configuration, REST API-based LLM integrations, workflow automation, LLM orchestration, GenAI use cases

TECHNICAL LEADERSHIP

- Led backend architecture discussions and design reviews for distributed systems.
- Mentored junior engineers and conducted regular code reviews to maintain high-quality engineering standards.
- Collaborated with cross-functional teams including product managers, QA, and DevOps to deliver production-ready features.

EDUCATION

BERHAMPUR UNIVERSITY <i>Master Of Computer Applications (MCA), Computer Science</i>	Odisha, India August 2014-August 2017
SAMBALPUR UNIVERSITY <i>Bachelor Of Science (Bsc.), Physics Honours</i>	Odisha, India August 2011-July 2014

CERTIFICATIONS

- | | |
|------------------------------------|------------------------------|
| • SAP Certified - Project Manager | SAP, 2026 |
| • AI Developer Foundation Program | SAP, 2024 |
| • Applied Data Science with Python | University of Michigan, 2022 |

HONOURS & AWARDS

Multiple Monetary Awards (2025) for ownership, cross-team collaboration, and high-impact delivery.	SAP
